

Army General Fund Enterprise Business System (GFEBS)

***Presented to:
American Society of Military Comptrollers
PDI - Kansas City***

***John L. Miller
Deputy Assistant Secretary of the Army
(Financial Information Management)***

30 May 2007

General Fund Enterprise Business System (GFEBS)

- **Is Army's principal financial transformation initiative**
- **Will integrate and process standardized financial and related non-financial data in real-time for the Army**
 - **Will provide reliable, relevant and timely data to Army leadership for making decisions in support of the Warfighter**
 - **Will comply with ~2,400 Federal Financial Management Improvement Act (FFMIA) requirements**
- **Provides a Web-based Enterprise Resource Planning (ERP) solution**
 - **An ERP system integrates data and processes from across an organization into a unified system**
 - **GFEBS uses SAP's commercial-off-the-shelf ERP software**

GFEBS will become the Army's financial backbone

The Army Requires A Great Deal Of Resources

**Army budget
\$200 billion
annually**

\$ 38 billion of inventory

\$120 billion in general property, plant & equipment

\$ 40 billion environmental liabilities

70 Brigade Combat Teams (BCT)

- 42 Active BCT
- 28 USARNG BCT

• 200 Support Brigades

- Active, USARNG and USAR
- Multifunctional, e.g., Combat Aviation, Sustainment
- Functional, e.g., Engineer, Military Police, Signals

- 482,000 Active Soldiers
- 350,000 National Guard Soldiers
- 205,000 Army Reserve Soldiers
- 229,000 Civilians

- 10,000 Major Items of Equipment
- 300,000 Spares and Repair Parts (Army)

250 Installations With Thousands Of Facilities

The Army Is A Steward of the Public Trust

Army budget
\$200 billion
annually

**Budget
Formulation**
“request for money”

**Budget
Execution**
“spend the money”

Budget Requests And Expenditures Need To Be

- ***Budget expenditures must focus on managing costs***
- ***Budget justifications must use expenditure and output data***

09/15/10

ASA(FM&C)

Why GFEBS?

Current Environment Deficiencies

Deficiencies include:

- Little or no linkage between expenditures and outputs
- Lack of visibility of total “program” cost at all levels
- Limited experience basis for formulating programs/budgets or planning/decision making
- High rework rate for financial processes drives costs

Integration
Nightmare!

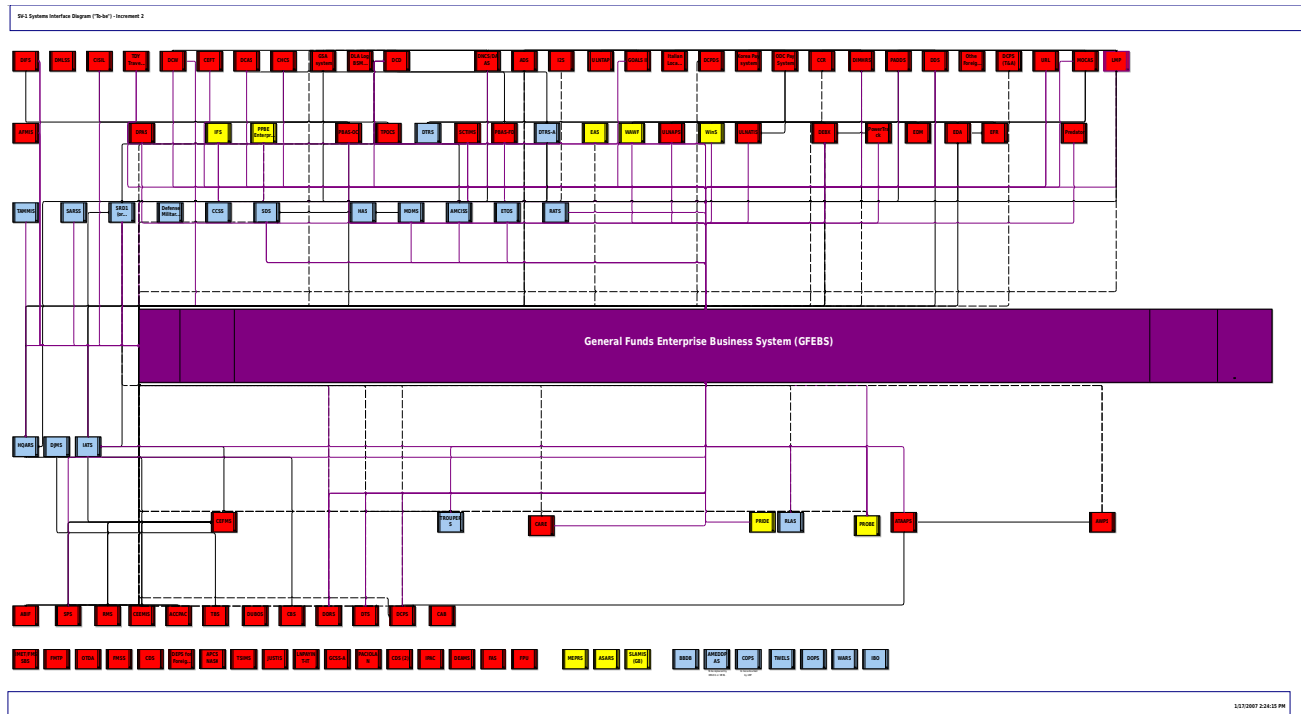

GFEBS

Anticipated Outcome

- Replace 80% of the current overlapping and redundant functionality in the Army's financial portfolio
- A universal system that provides a single authoritative source of the Army's financial management information

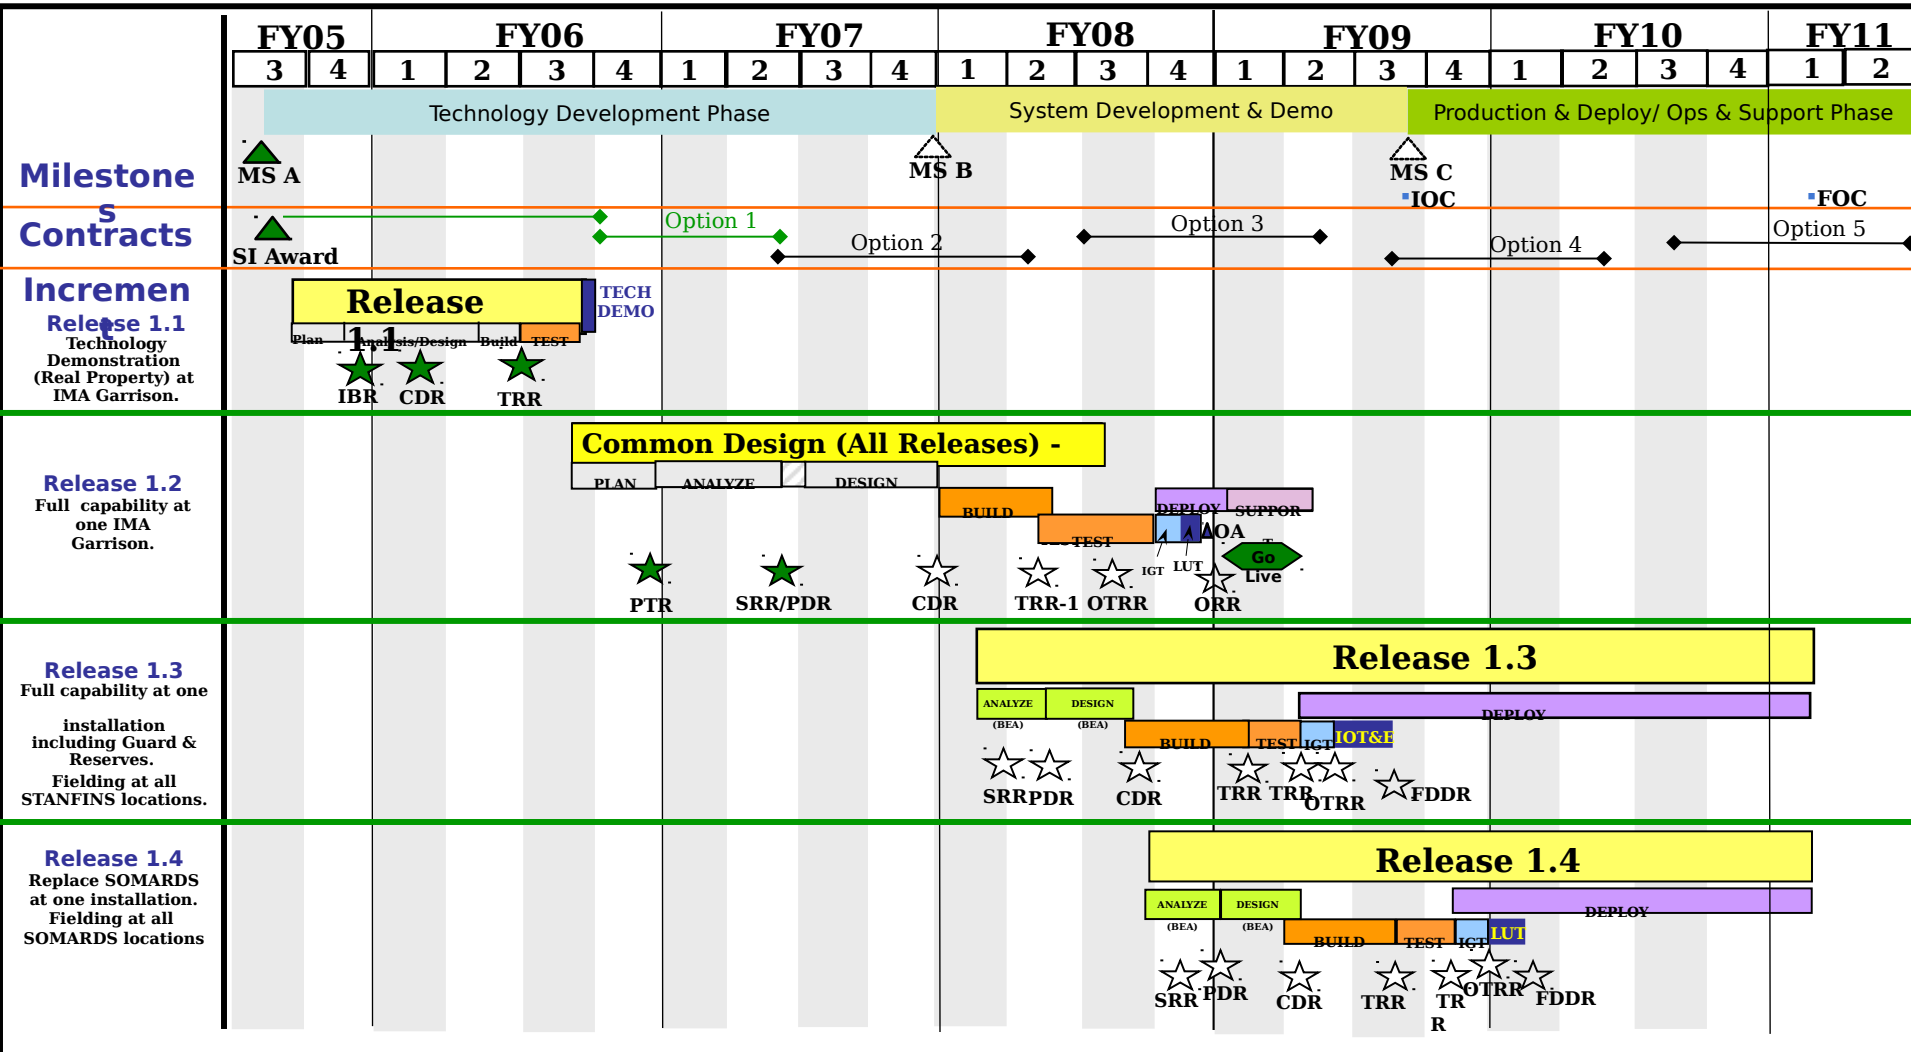

GFEBS Release Strategy

Release	Scope	Description	Start Date	Completion Date
1.1	Ft. Jackson	Technology Demonstration for real property at IMA garrison	May 2005	June 2006
1.2	Ft. Jackson	Full capability at IMA garrison	June 2006	October 2008
1.3	Army-wide	Fielding at all STANFINS locations, including Guard and Reserves	November 2007	October 2010
1.4	Army-wide	Fielding at all SOMARDS locations	June 2008	October 2010

- ❖ GFEBS is implemented in four releases to reduce risk and allow for up-front initial capability in the field
- ❖ Release 1.1 was completed at Ft. Jackson in June 2006; future releases build upon this release
- ❖ Release 1.2 identifies all GFEBS requirements and incorporates them into a global design

GFEBs Schedule -- Incremental Development And Deployment

IBR - Integrated Baseline Review
Operational Capability
PDR - Preliminary Design review
Full Operational Capability
CDR - Critical Design Review

MS A - Milestone A
MS B - Milestone B
MS C - Milestone C

IOC - Initial
FOC
LUT - Limited

TRR - Test Readiness Review
Systems Integrator
PTR - Phase Transition Review
IOT&E - Initial Operational Test & Evaluation

OTRR - Operational Test Readiness Review
FDDR - Full-Rate Deployment Decision Review

GFEBS

Functional Organizational Structure

Release 1.2 Status

By Functional Integration Process Team

- **Funds Management / Budget Formulation**
 - Budget Formulation is below HQDA level
 - Funds Management of General Funds
- **Property, Plant and Equipment**
 - Real Property, Maintenance, Equipment/Assets, Environment Liabilities
- **Spending Chain**
 - Initiate purchase requisition and check funds, record obligation, manage goods and services receipts and process disbursement
 - Logistics integration / inventory management
- **Reimbursables**
 - Execute order management
 - Process accounts receivable
- **Cost Management**
 - Full Costing Focused on Brigades, Starting with IMCOM Services / SSP's
 - Payroll & Travel Interfaces
- **Financials**
 - General ledger accounting (USSGL)
 - Workflow Journal Voucher Approval Process
 - Financial Statement reporting to departmental level
 - Month end/ Year End Closing Process

•CMA (2)		•PMLMP (3)	

Appreciate the participation!

CONCLUSION

GFEBS will improve:

- Planning, Programming and Budgeting through use of actual experience data – financial and output
- Execution by fostering cost management and “best practices”
- Funds management by providing real-time information on funds execution
- Business processes by eliminating a large number of legacy systems thus savings:
 - Millions of dollars in support and
 - Thousands of hours in data entry, transfer and validation

GFEBS will supply knowledge-based information for decisions on providing and sustaining trained and ready land forces

Business Process Changes Yield Benefits

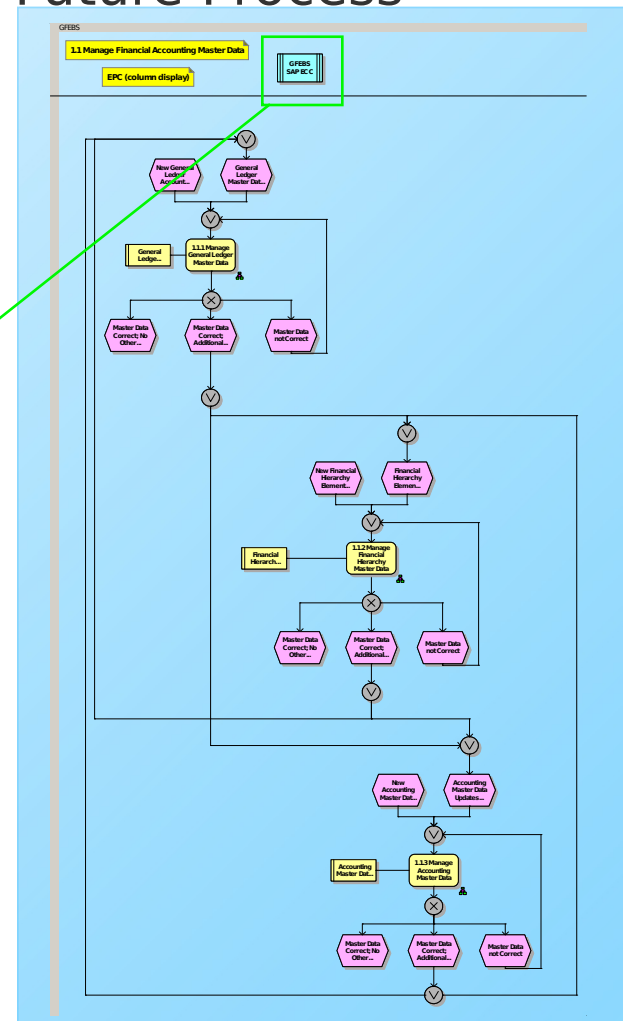

Current Process

Single system

Multiple systems

Future Process

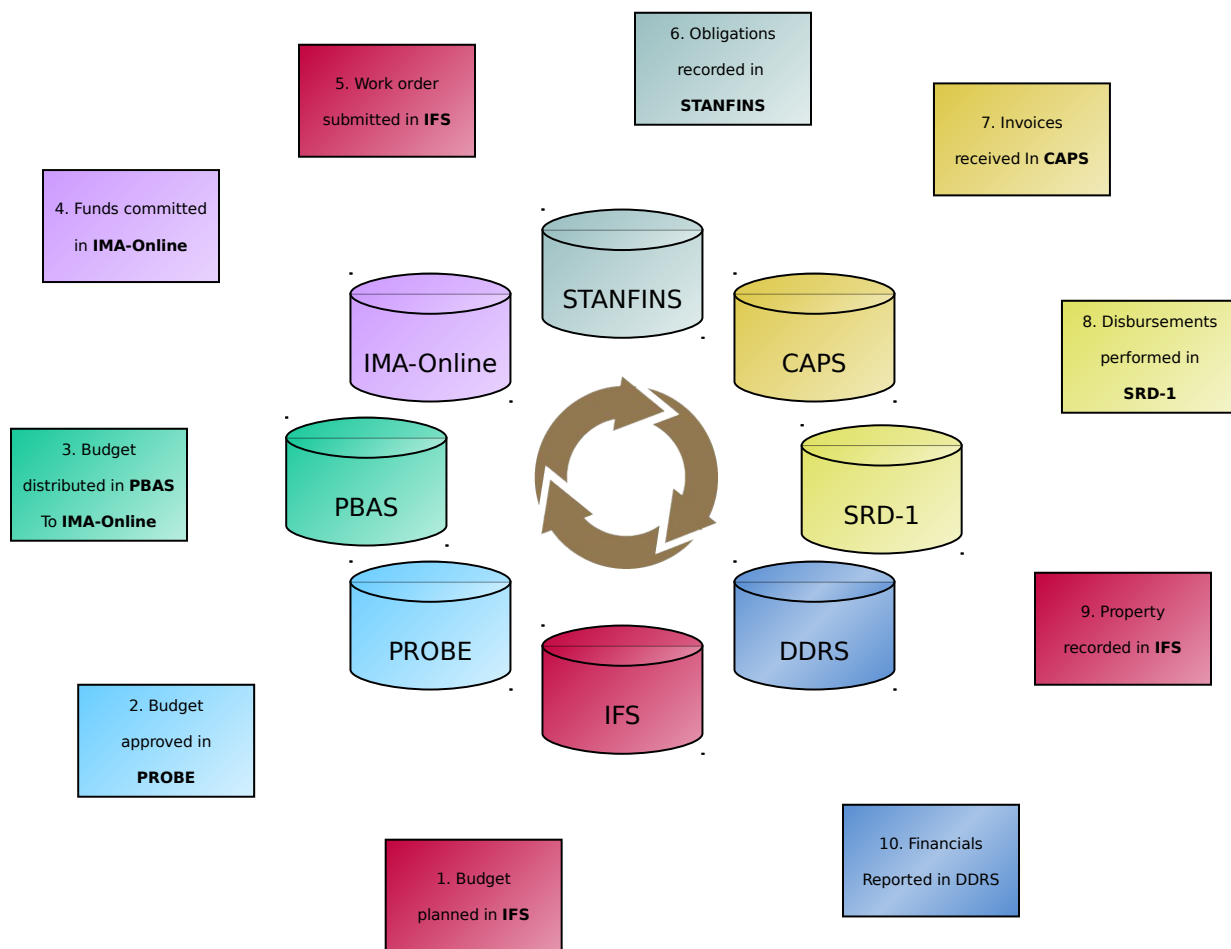

Benefits

- real-time execution data
- cost management
- integrates outcomes/outputs/performance
- reliable data limits reconciliation
- single system
- direct charge for intra-Army payments
- integrates program, budget and execution data
- institutes internal controls

Current Business Process For Real Property

<u>System</u>	<u>Owner</u>
IFS = Integrated Facility System	Assistant Chief of Staff for Installation Management
PROBE = Program Optimization and Budget Evaluation	Assistant Secretary of the Army, Financial Management & Comptroller
PBAS = Program Budget Accounting System	Defense Finance Accounting Service
IMA-Online = Installation Management Agency-Online	Installation Management Agency
STANFINS = Standard Finance System	Defense Finance Accounting Service
CAPS = Computerized Accounts Payable System	Defense Finance Accounting Service
SRD-1 = STANFINS Redesign-Subsystem 1	Defense Finance Accounting Service
DDRS = Defense Departmental Reporting System	Defense Finance Accounting Service
